

# Experience Pain-Free Freedom

With Low-Level Laser Therapy  
No Drugs | No Pain | No Side-effects | No Downtime

*Now you can relieve your pain and inflammation associated with chronic pain! The healing powers of this low-level laser technology can get you back to an active lifestyle in only a manner of weeks!*

## *Ask Your Doctor*

Ask your doctor about the benefits of low-level lasers and learn how the Erchonia<sup>®</sup> lasers can work to treat pain...

The answers are simpler than you might think.

- Chronic Neck Pain
- Post-Operative Pain
- Heel Pain related to Plantar Fasciitis
- Chronic Low Back Pain
- Chronic Shoulder Pain

Low-level laser therapy (LLLT) or cold laser, is a painless sterile, non-invasive, drug-free modality that is used for a variety of conditions such as acute and chronic pain, body-contouring, acne, and the appearance of cellulite.
